

Skottorp 1.1 – 7.3: Praktfullt hängkläde från södra Halland

1

Detta hängkläde med proveniens från Skottorps slott är praktfullt och ovanligt då det är bevarat i sin helhet. Därför har vi valt att publicera alla de mönster som ingår i kompositionen. Sammanlagt är det 7 stycken mönstergrupper som finns på hängklädet. Med spegelvändningen på mitten blir det hela 13 mönsterbra'n över hela längden.

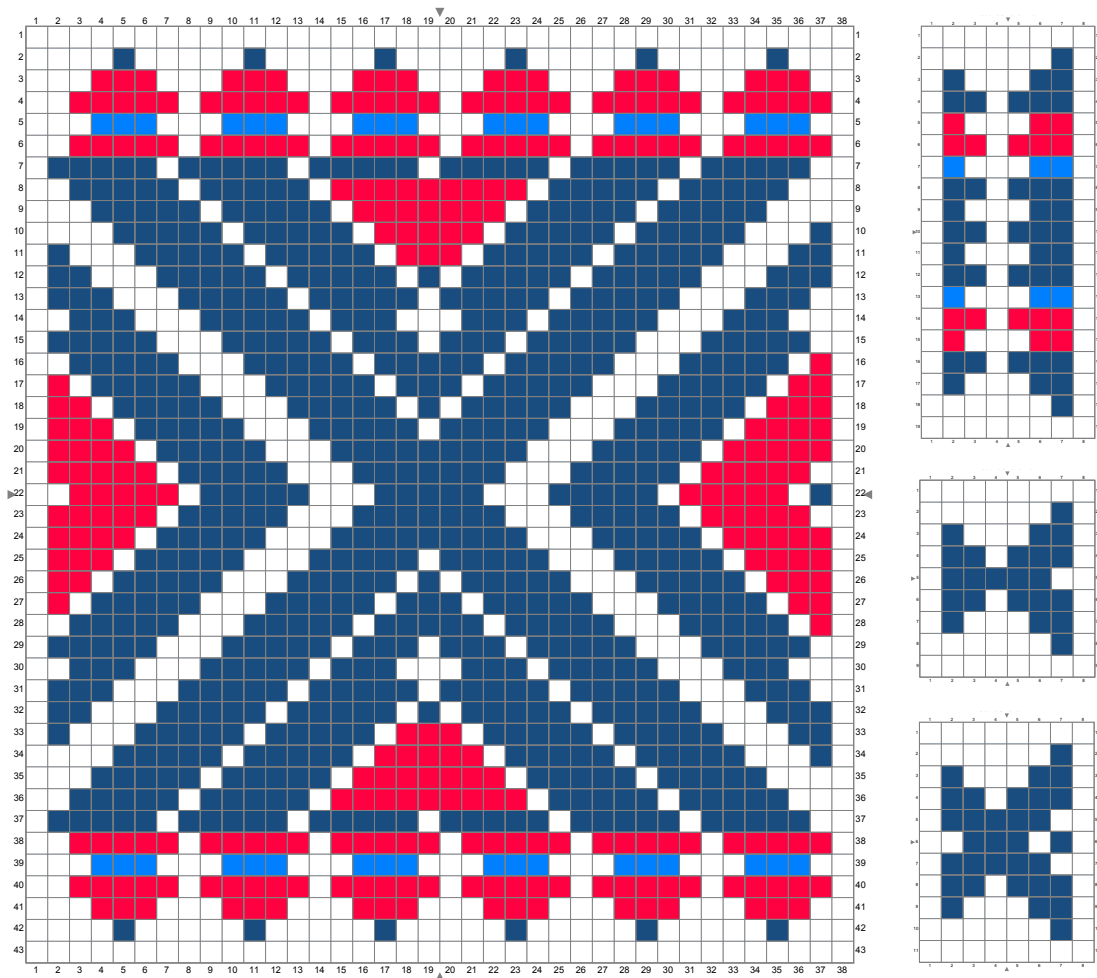

Hängklädet är i privat ägo och är i mycket gott skick. Det är runt 8 meter långt och är avslutat med en enkel knuten frans. Väverskan har kombinerat tre färger: rött, mörkblått och ljusblått med många färgbyten.

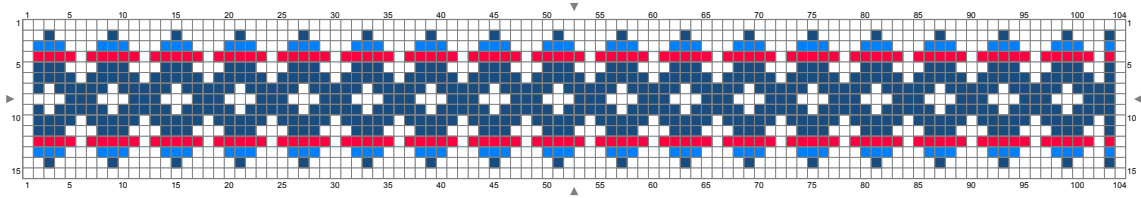

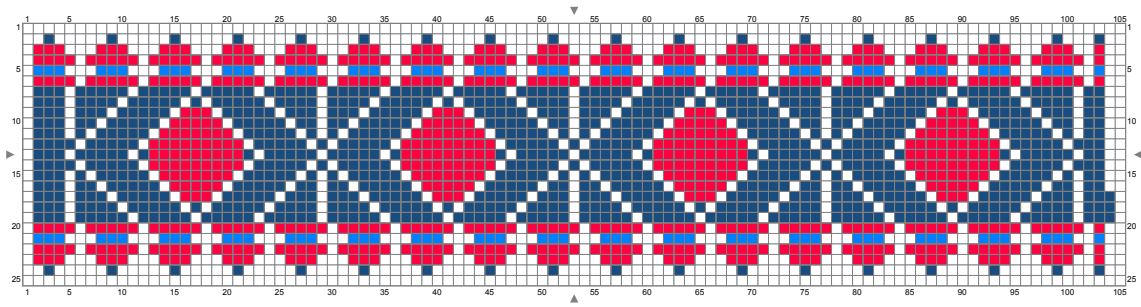

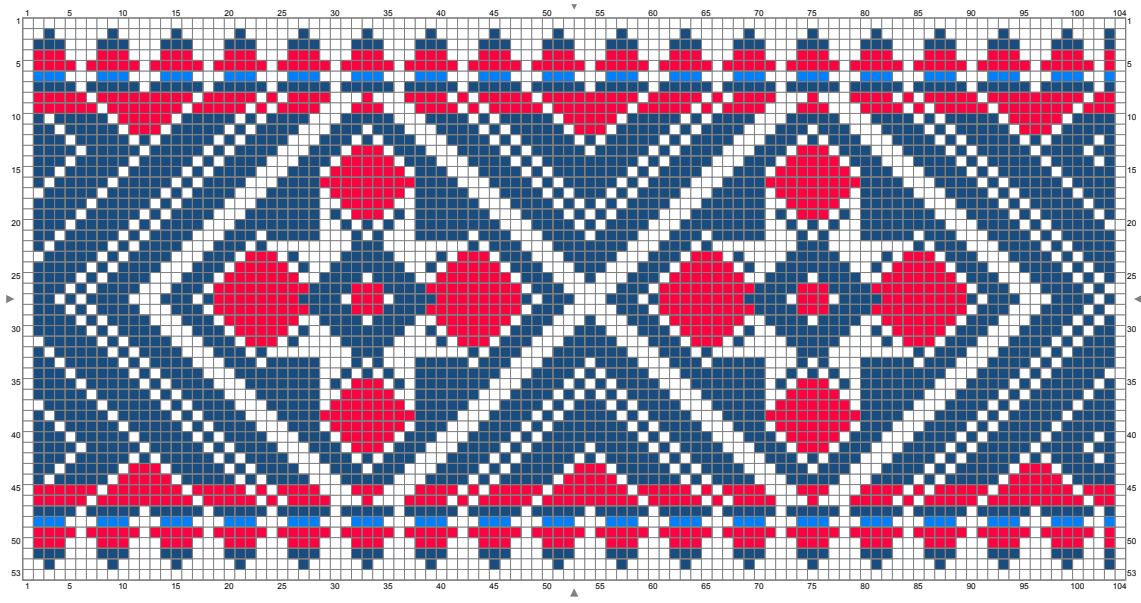

En del av detta hängklädes historia är bevarat genom dess nuvarande ägare. Det har en gång hängt på slottet Skottorp utanför Laholm. 1994 såldes mycket av inventarierna ut på slottet, och detta hängkläde hamnade därigenom på något vis på en loppis.
